

Which Satellite Phone Would You Choose?

Globalstar has the lowest price at \$399 and the best voice quality. Its primary coverage area is limited to North America, The Caribbean, Europe and The Mediterranean. The IsatPhone 2 is a good value as a global (except the arctic areas) phone at \$735 with 100 units (78 minutes) of airtime for \$100. The Iridium 9555 (\$1095) and Iridium 9575 Extreme (\$1375) are the top choices for global coverage and reliability, but also have the most expensive airtime, such as \$140 for 75 minutes valid for one month, with a price increase coming this Spring. If you are thinking about buying or renting a satellite phone, give us a call at 561-245-5203 and we'll review your trip plans and your communications needs and try to help you select the best phone for your needs.
